

The ASVAB Program
can help you chart
your career:

I really liked seeing all of the different careers that are available to me based on my skills, interests, and values.

I was able to learn what jobs I might be interested in after high school and which skills I will need to obtain the jobs that interest me.

I didn't have a good idea of what I wanted to do, but I knew that I liked math. The OCCU-Find showed me several careers that require math skills.

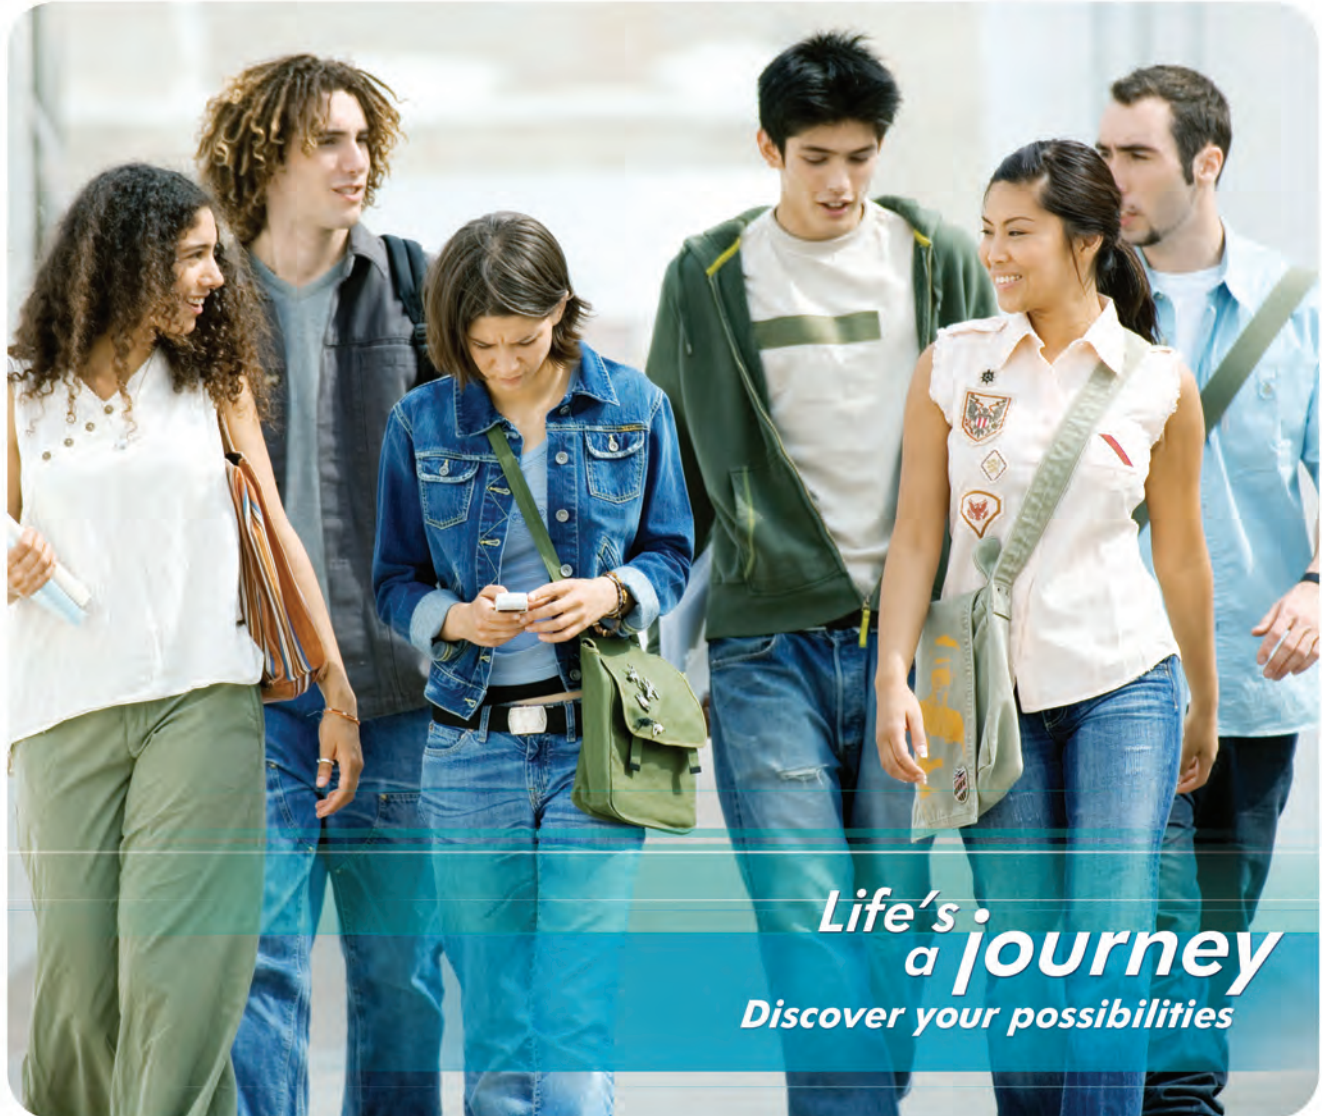

I discovered new careers that I didn't know existed. Now, I can really explore jobs and prepare for my future.
